I am a highly motivated, fast learner with a keen eye for detail. I am not limited by lack of experience because I believe everything can be taught. A diligent and trustworthy team player, I seek to increase value in every endeavor and help achieve organizational objectives to the best of my abilities.

WORK EXPERIENCE

JUNE 2022 – PRESENT

SUPPORT ENGINEER, IMS GLOBAL VENTURES

- **DevOps & Automation:**
Used automation tools to deploy apps, bug fixes and updates to apps in various servers. Ansible AWX / Automation Controller, Infrastructure as Code (Terraform, AWS CloudFormation), Bash scripting, Python automation, Git (GitLab, GitHub), CI/CD pipeline design (GitLab CI, Jenkins, AWS CodePipeline/CodeBuild/CodeDeploy).
- **Cloud Platforms (AWS):** EC2, S3 (lifecycle management, EventBridge triggers), IAM (users, roles, policies), Service Control Policies (SCPs), CloudWatch & X-Ray (monitoring/tracing), EventBridge (event-driven workflows), Lambda (serverless automation)
- **Observability & Monitoring:** Grafana (Loki dashboards & alerting), Zabbix, logging/metrics analysis, exposure to Splunk, Elastic, Datadog, Exabeam, Azure Sentinel.
- **Databases & Data Pipelines:** PostgreSQL (backup automation, monitoring), MongoDB, Apache NiFi (ETL workflows).
- **Containers & Orchestration:** Docker (image management, cleanup automation, container lifecycle), Kubernetes (deployment, scaling, orchestration).
- **Security & Compliance:** IAM governance (least privilege, role-based access), secrets management (AWS Secrets Manager, SSM Parameter Store), SCP enforcement, system crash/log analysis (/var/crash management).
- **Software Delivery Practices:** Immutable infrastructure (Golden AMIs, image-based deployments), blue/green & rolling updates, canary deployments, automated testing in pipelines.
- Analyzed reported issues affecting applications to establish root cause and determine appropriate solutions.
- Created and maintained technical documentation, including knowledge base articles ensuring information is accurate, present and up-to-date.
- Reported software bugs and issues to 'Dev' teams using issue management tools i.e. Atlassian.
- Escalated complex/timely communication with stakeholders.

2017 – JUNE 2022

FREELANCER/STUDENT

-Completed Google Android Developer training course where I learnt Android app development - <https://adscerts.com/scholar/3D3C715446B8134>

- Completed an online course for Full Stack Development where I implemented a full website using HTML, CSS and JavaScript complete with backend setup (Python) and google authentication.
- Completed online course for introduction to Linux.
- Learnt how to perform CRUD operations using SQL
- Learnt to work with containerization, specifically Docker on an introductory level.
- Learnt how monitoring tools work to handle IT infrastructure.

2013 – 2017

PRESENTER/PRODUCER, RADIO AFRICA GROUP

- Produced and hosted live Tv shows on the company's KISS Tv station

EDUCATION

(PENDING GRADUATION)

BSC. (SOFTWARE ENGINEERING), KENYATTA UNIVERSITY

All units completed. Awaiting graduation.

2006-2009

UPPER HILL SCHOOL

Grade A-(minus)

1998-2005

BELLEVUE PRIMARY SCHOOL

424 out of 500

SKILLS

- Team player
- Fast learner
- Diligent and trustworthy
- Critical thinker
- Keen eye for detail
- Time conscious

ACTIVITIES/HOBBIES

I enjoy playing football, listening to and singing along to music and learning new things.
